

Jeremy Peronto

ENTERPRISE REVENUE OPERATIONS & MARKETPLACE STRATEGY LEADER

jeremy@jeremyperonto.com linkedin.com/in/jeremyperonto Seattle, WA

Strategic revenue leader with 15+ years building and scaling marketplace and go-to-market ecosystems across Amazon, TikTok, and venture-backed platforms — overseeing \$2.8B+ portfolios and 20+ person teams. Proven to architect zero-to-scale revenue engines, including a 0 to 2,500 partner network generating \$6.5B in revenue, and to install the planning, forecasting, and incentive systems executives rely on to steer performance.

HIGHLIGHT REEL

- ▶ Built and scaled multiple zero-to-scale revenue ecosystems, repeatedly converting ambiguous mandates into structured operating models that sustained enterprise growth.
- ▶ Install executive planning rhythms and performance cadences that clarify priorities, align VP stakeholders, and translate complex metrics into decision-ready narratives.
- ▶ Architect revenue infrastructure across CRM, forecasting, and incentive systems to improve visibility, accountability, and capital-allocation discipline.
- ▶ Resolve cross-functional trade-offs across Product, Finance, Sales, and Operations by defining measurable standards and enforcing operating guardrails.
- ▶ Transform fragmented marketplace processes into durable governance frameworks that improve margin resilience, partner quality, and long-term scalability.

TikTok — Head of Business Development & Account Management

Seattle, WA · Jun 2024 — Oct 2025

Single-threaded leader for Seller Growth within TikTok's first-party logistics network, overseeing Business Development, Account Management, and Seller Success across a \$2.8B portfolio and 14–22 person team.

- **Revenue portfolio expansion:** scaled seller base from 163 to 929 partners (+470%) in 18 months, driving 3x package-volume growth while navigating four pricing adjustments.
- **Revenue planning architecture:** designed a 10M-unit BFCM inbound forecast across 328 strategic sellers, aligning Sales, Supply Chain, and Finance around capacity trade-offs and protecting peak service levels.
- **Margin & rate strategy:** directed logistics P&L across an \$88M book, balancing retention and profitability through segmented rate-card increases.
- **Inventory health transformation:** reduced aged inventory from 25% to 10% by launching the Deadwood Program and instituting throughput-based space-allocation models.
- **Voice-of-Seller infrastructure:** built enterprise feedback and CRM mechanisms that surfaced systemic friction, proactively reducing churn across a \$2.8B seller portfolio.

Tomo — Director, Business Development, Strategy & Operations

Seattle, WA · May 2022 — May 2024

Architect of go-to-market and revenue operations for Tomo's first-party marketing platform and third-party agent network, reporting to executive leadership.

- **Zero-to-scale channel build:** grew the agent marketing ecosystem from 0 to 750+ producing agents, contributing to 146% loan-volume growth within 12 months.
- **Revenue operations architecture:** built CRM and funnel infrastructure expanding the database from 3K to 16K contacts, enabling full-funnel ROI attribution.
- **Executive decision enablement:** developed a financial model surfacing unsustainable CAC dynamics, influencing a CEO-level decision to halt scaling and preserve capital before broad rollout.
- **Budget optimization framework:** managed a \$250K monthly partner-marketing budget across 58 partners, reallocating spend based on conversion-efficiency metrics.

Amazon — Senior Manager, Partner Acquisition & Operations, Last Mile

Seattle, WA · Sep 2018 — May 2022

Led 20+ program managers and recruiters scaling the Delivery Service Partner (DSP) network; owned acquisition systems, risk governance, and executive reporting to VP leadership.

- **Ecosystem creation at scale:** built the DSP network from 0 to 2,500+ owners, generating \$6.5B in partner revenue and 100K+ jobs over three years.
- **Risk-based partner qualification:** implemented candidate scoring and filtration mechanisms excluding 17.3% of high-risk applicants, enabling VP leadership to scale while avoiding ~\$18M in litigation exposure.
- **Incentive & access expansion:** launched a \$12M diversity grant program to expand the partner pipeline and reduce capital barriers to entry.
- **Acquisition cost efficiency:** deployed a referral-optimization strategy reducing acquisition cost by 9.6% in 2021 through structured incentive design.

Amazon — Senior Business Development Manager, Software

Seattle, WA · Jul 2017 — Sep 2018

Led vendor acquisition and SaaS marketplace expansion within Amazon Business, managing a team of four across vendor sourcing and onboarding.

- **Category revenue acceleration:** drove 91% year-over-year GMS growth by onboarding 37 vendors and expanding enterprise SaaS selection.
- **Subscription growth engine:** increased subscription starts by 93.6% through merchandising optimization and vendor-investment alignment.
- **Strategic vendor negotiation:** structured commercial agreements across 37 vendors and 86 products, strengthening marketplace competitiveness and selection depth.

Amazon — Senior Marketing Manager, Amazon Drive & Prime Photos

Seattle, WA · May 2015 — Jul 2017

Led product marketing, retail integrations, and performance reporting across Amazon Drive and Prime Photos, managing a team of three and partnering with Device, Retail, and Product leaders.

- **Revenue activation:** launched the Amazon Drive retail integration driving 73.1% of category Holiday revenue through homepage placement and promotional orchestration.
- **Conversion-rate optimization:** led a desktop and mobile marketing-site redesign increasing plan sign-up conversion by 9.8% through UX simplification and benefit clarity.
